CHALLENGES

Salone LinkUp struggled to grow their Instagram following and engage with their existing audience. They needed a strategy that would help them reach their target audience and increase their following and engagement rates.

OBJECTIVE

To increase Salone Linkup's Instagram community from 700 to 1,000 followers in 5 months

SOLUTION

Our team developed a content strategy that was tailored to their audience's interests and preferences. We optimized their Instagram profile, implemented a content calendar, and encouraged user-generated content to increase engagement. We also used relevant hashtags to attract new followers and increase their reach.

STRATEGY

Our strategy was to create a comprehensive plan that focused on organic growth and engagement. To ensure consistent and high-quality content, we implemented a content calendar. This calendar laid out a schedule of posts for each day, including static posts, videos, and Instagram stories. We made sure to balance the different types of content and to vary the topics to keep the audience engaged.

RESULTS

Our strategy led to a steady increase in their Instagram following. By the end of the 5th month, their following had grown to 1,000 followers. Overall, our strategy led to increased brand awareness, improved engagement rates, and a more engaged and loyal community on Instagram.
